- Recognition and business logo in pre and post event literature

Young Life, founded in 1941, is a non-denominational Christian outreach ministry. Our staff and volunteers enter the world of kids, focusing on what matters to them—fun, adventure, friendship, and a sense of significance. In doing so, we earn the privilege of talking to them about something we think matters most of all—a relationship with Jesus Christ. It is a true privilege to walk alongside kids in their lives, right where they are.

- Young Life in Dubois County is beginning its 14th year
- Summer 2012 camp trips: Young Life (high school) - 50 kids and leaders, WyldLife (middle school) - 60 kids and leaders
- Our Young Life leadership team of 11 logged a total of 2,376 hrs. with kids this year, while our WyldLife leadership team of 30 logged 750 hrs. with middle school kids. In the 5-7 days alone during the week we spend with kids at camp, we log a collective average of 1300 hrs. with kids (not included in the above numbers)!

What is Young Life? What impact does it have?

Young Life, founded in 1941, is a non-denominational Christian outreach ministry. Our staff and volunteers enter the world of kids, focusing on what matters to them—fun, adventure, friendship, and a sense of significance. In doing so, we earn the privilege of talking to them about something we think matters most of all—a relationship with Jesus Christ. It is a true privilege to walk alongside kids in their lives, right where they are.

- Class of 2009: 6.7% dropout rate at Jasper High School, 12% at Forest Park High School, 9% at Dubois High School, and 14.9% at Southridge High School.
- 2008: 42 pregnancies in females, ages 15-19, in Dubois County.
- 2007: 44% of the deaths were by injury in the 15-19 age group, 13% were by suicide and 13% were homicides (IN State Department of Health)
- 2009 Youth Risk Behavior Survey (YRBS): 38.5% said they drank alcohol in the past 30 days, 37.1% smoked marijuana at least one time in their life, 49.2% have had sex, and 3.6% attempted suicide in the past 12 months that had to be treated by a doctor or nurse.
